**Oct. 16, 2010, 8:30 a.m. to 2 p.m.**  
Saint Mary-of-the-Woods, Ind., near Terre Haute

Invasive species damage wildlife habitats and property values. White Violet Center for Eco-Justice teams up with expert foresters to present a workshop on how to successfully control or eradicate invasive species from land.

This is sure to be a valuable program for those wanting to better understand:

- Invasive species identification and impacts.
- Management strategies: getting a grip on invasives.
- Invasive plant control options for the private land owner.

After lunch, the presenters will work with participants as we all apply what we've learned in controlling a variety of invasive species. This will be a great way to experiment and see what methods work best for your situation.
