

Conditions for Permit Approval

Permit No. 202310053

Permit No. 202310054

Permit No. 202310055

Permit No. 202310056

1. Boone County and/or Boone County's representative must approve the construction plans before construction begins on any section of the project.
2. Boone County and/or Boone County's representative must approve any changes to the plans or deviations from the plans.
3. All construction activities must be coordinated with Boone County and/or their representatives.
4. The selected contractor must be INDOT prequalified.
5. The project will be publicly advertised and opened up to any contractor that is INDOT prequalified.
6. The permittee will present at a Boone County Commissioner meeting the contractor selection process, bidders, and selected contractor.
7. Access to properties must be maintained during and throughout construction.
8. A public safety meeting with Public Safety & School Transportation Representatives must be held on a weekly basis throughout construction.
9. Communication via email distribution is required for phase changes that will affect site access.
10. Before construction begins on any section, the right of way acquisition status must be shared with the County.
11. Boone County and/or Boone County's representative shall have authority to stop work in accordance with the non-conformance process included in the contract documents.
12. Any damage to other public infrastructure or private property found to be caused by this project's construction activities is the responsibility of the permittee.
13. Payment and Performance bonds must be submitted before construction can begin. 3-year maintenance bond is required upon acceptance of the work.
14. All materials used on these projects shall conform with INDOT standard specifications including acceptance testing. Material or testing deviations must be approved by Boone County and/or Boone County's representative, or the City of Lebanon, depending upon the applicable jurisdiction, prior to installation.
15. At the conclusion of the project all land shown on the plans as right of way that was acquired must be transferred to the controlling public agency.
