Standards for Evaluation

1. The variance will not be injurious to the public health, safety, morals, and general welfare of the community. *(Explain in detail how allowing you to vary from the standards of the ordinance will not affect the county and residents in general. What are you specifically doing to minimize potential impacts?)*

2. The use or value of the area adjacent to the property included in the variance will not be affected in a substantially adverse manner. *(Explain in detail how the variance you are requesting will not have a negative impact on your neighbors' property and how they can use it. What are you specifically doing to minimize potential impacts?)*

3. The strict application of the terms of the ordinance will result in practical difficulties in the use of the property. *(Explain in detail how there is no other way for you to use your property or configure your proposed development without obtaining the variance.)*

Provide additional sheets if needed.

Attachment C: Standards for Evaluating a Special Exception

Standards for Evaluation

<p>1. The establishment, maintenance, or operation of the Special Exception will not be detrimental to or endanger the public health, safety, morals, or general welfare. <i>(Your proposed use is not typically permitted in this district. Explain how allowing the use in this location will not affect the county and residents in general. What are you specifically doing to minimize potential impacts?)</i></p>
<p>2. The Special Exception will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted. <i>(Since your use is not typically permitted in this district, explain in detail why allowing your use in this location will not affect how your adjacent neighbors currently use and access their property. What are you specifically doing to minimize potential impacts?)</i></p>
<p>3. The establishment of the Special Exception will not impede or substantially alter the normal and orderly development and improvement of surrounding property for uses permitted in the zoning district. <i>(Since your use is not typically permitted in this district, explain in detail how allowing your use in this location will not affect how properties in this area that comply with the ordinance now or in the future will not be negatively impacted. What are you specifically doing to minimize potential impacts?)</i></p>
<p>4. Adequate utilities, road access, drainage, and other necessary facilities have been or are being provided. <i>(Itemize and explain in detail that you will be obtaining all of the necessary permits and approvals required for establishing your use in this location.)</i></p>
<p>5. Adequate measures have been or will be taken to provide entrance/exit to the property to minimize traffic congestion on the public roadways. <i>(Explain in detail why your driveway is located where proposed and why it will not create a traffic hazard. What are you specifically doing to minimize potential impacts?)</i></p>
<p>6. The special exception will be located in a district where such use is permitted by special exception and all other requirements set forth in the Boone County Zoning Ordinance will be met.</p> <ul style="list-style-type: none"><input type="checkbox"/> YES - I have reviewed and understand the applicable development standards with Staff and they will all be met.<input type="checkbox"/> UNSURE - At this time, I am unsure if all of the standards will be met. Provide additional sheets if needed.

Attachment D: Standards for Classifying a Use

Use the following form or attach a separate sheet(s) to explain in detail the Use to be classified. The BZA's decision shall be based upon how each of the following criteria is explained and justified in the request.

Standards for Evaluation

1. INTENSITY. Is the unlisted use similar in the amount of activity and type of activity to a listed use?
- Residential, Public, and Office Uses: Intensity levels should compare to the number of people using a space.
 - Commercial Uses: Intensity levels should compare the gross commercial floor area associated with the primary structure as well as the operation of the business, such as hours of operation and anticipated customer volumes.
 - Industrial Uses. Intensity should compare the amount of noise, noxious exhaust, and public safety hazards generated on the site. In addition, the types of vehicles used, type of storage (indoor and outdoor), and hours of operation should be considered.

2. CHARACTER. Does the use have similar physical characteristics, structures, scale, operational hours, or other features similar to a listed use?

3. ACCESSORY USES AND STRUCTURES. Does the use have similar potential for accessory uses and/or structures to a listed accessory use? Or if it is an accessory use, is it incidental to, necessary, and/or compatible with a permitted primary use?

4. INTENT. Is the unlisted use compatible with the purpose of the subject zoning district and consistent with the future land use contemplated in the Comprehensive Plan?

Provide additional sheets if needed.

In exercising its powers, the BZA may affirm (wholly or partly), reverse, or modify the order, requirement, decision, or determination appealed and to that end shall have all of the powers of the Administrator from whom the appeal is taken.

When an appeal has been filed, all proceedings, operation, and work on the premises concerned must stop, unless the official from whom the appeal was taken shall certify to the BZA that, by reason of facts stated in the certificate, a stay would cause imminent peril to life or property. In such case, proceedings or work shall not be stayed except by a restraining order, which may be granted by a circuit or superior court of the county in which the premises affected are situated, on notice to the office or board from whom the appeal is taken and the owner of the premises affected, and on due cause shown.
